

SvTop 10% Codon Adapted Genes

term_id	term_name	term
006082	organic acid metabolic process	224
043436	oxoacid metabolic process	222
019752	carboxylic acid metabolic process	179
044281	small molecule metabolic process	417
055114	oxidation-reduction process	401
043228	non-membrane-bounded organelle	381
043232	intracellular non-membrane-bounded organelle	381
005840	ribosome	121
005198	structural molecule activity	236
003735	structural constituent of ribosome	120
